NOTICE TO CORRESPONDENTS.

The great pressure on our space, from the unusual extent of the Original Communications, has compelled us to postpone, until our next Number, some papers already in type: amongst others, one by Professor Heslop, of Birmingham, on "Intestinal Worms;" one by Staff-Surgeon Williamson, on "The Wounded in the Mutiny in India, who were received into Fort Pitt Hospital at Chatham;" and the "Memoir of the late Thomas Hawkesworth Ledwich, F. R. C. S. I."

Books and Periodicals published in Northern Europe and the German States, intended for our Journal, should be transmitted "For the Editor of the Dublin Quarterly Medical Journal, care of Messrs. Trübner and Co., London," *through their Correspondents* in the principal Towns on the Continent. Our Correspondents in France, Belgium, Italy, and Spain, are requested to communicate with us through "Doctor Higgins, 212, Rue Rivoli, Paris."

ROYAL COLLEGE OF PHYSICIANS OF EDINBURGH.

At a Meeting of the Royal College of Physicians of Edinburgh, held on Wednesday, the 20th of April 1859, the following Regulations for the conferring of the License of the College were revised and finally adopted:—

1. No one shall be admitted a Licentiate of the College, until he have attained the age of twenty-one years.

2. Every Applicant for the License of the College must produce satisfactory evidence to the Censors of the College, that he has attended the following Classes during a period of at least four years, at a University, or at some Medical School recognised by the College, unless he claim exemption under Laws 7 and 8:—

		Duration at least
Anatomy,	1 Course,	Six Months.
Practical Anatomy,	2 Courses,	Six Months, *or*
	4 Courses,	Three Months each.
Botany (unless taken as a branch of preliminary study),	1 Course,	Three Months.
Chemistry,	1 Course,	Six Months.
Practical Chemistry,	1 Course,	Three Months.
Materia Medica and Pharmacy,	1 Course,	Six Months.
Institutes of Medicine or Physiology,	1 Course,	Six Months.
Practice of Medicine,	1 Course,	Six Months.
Clinical Medicine,	extending to	Twelve Months.
Principles and Practice of Surgery,	1 Course,	Six Months.
Clinical Surgery,	1 Course,	Six Months, *or*
	2 Courses,	Three Months each.
Midwifery,	1 Course,	Six Months, *or*
Midwifery,	1 Course,	Three Months.
Diseases of Women and Children,	1 Course,	Three Months.
Medical Jurisprudence,	1 Course,	Three Months.
Pathological Anatomy,	1 Course,	Three Months, *or*
General Pathology,	1 Course,	Three Months.
Practical Pharmacy,	1 Course,	Three Months.

The Applicant must also produce evidence of having attended the practice of a Public Hospital (containing not fewer than 80 beds) during a period not less than twenty-four months.

3. Every Applicant for the License of the College must, unless he claim exemption under Law 5, satisfy the Examiners of the College in Preliminary Education, that he has a competent knowledge of the following branches of study :—

1. The Grammatical Structure of the English and Latin Languages.
2. Greek, or, in lieu of Greek, at the option of the Candidate, some one of the principal modern European Languages.
3. Mathematics.
4. Natural Philosophy ; or in lieu of this, at the option of the Candidate, Logic and Mental Philosophy.
5. Botany : it being optional for the Applicant to take it as a branch either of Preliminary or of Professional Study.
6. The following branches, though not enjoined, are recommended for study : Comparative Anatomy, Natural History, Geology.

The Council shall, from time to time, fix on Books as guides for preparation for Examination in the preliminary branches ; and intending Applicants shall be furnished with lists of these on application to the Secretary ; or the Council may publish them from time to time, if they see fit.

4. It shall be competent for the Council of the College, on a petition from any Student of Medicine about to enter on his professional studies, or from such Student at any period during his professional studies, to remit him to the Examiners on Preliminary Education, who shall thereupon take him on trial touching his proficiency in those branches of General Knowledge specified in Law 3 ; and, should he pass such Examination to the satisfaction of the Examiners, to exempt him from all further examination on these subjects.

5. Masters and Bachelors of Arts of any British or Foreign University, whose course of study may be approved of from time to time by the College, shall be exempted from such Preliminary Examination ; and also those who have successfully undergone such Examination by any of the Licensing Boards recognised by the Medical Act, provided the course of Education, and the subjects of Examination, be equivalent to those included under Regulation 3.

6. The Council of the College, on the petition of any Student of Medicine to be admitted a Licentiate, shall remit to the Censors of the College to examine the evidence of his having attended the curriculum of professional study required by the College ; and, if the report is satisfactory, shall remit him to the Examiners on Professional Education, who shall examine him in those branches specified in Law 2.

7. Graduates in Medicine, whether as Doctors or Bachelors of such British and Foreign Universities as shall from time to time be recognised by the College, shall be exempted from this Examination.

8. For one year after the passing of these Regulations, Licentiates of any of the existing Licensing Boards may be admitted Licentiates of the College without Examination, provided that they do not derive any profit from the sale of drugs or medicine, and that they produce Certificates of Character and Professional Qualification satisfactory to the College.

The following shall be the procedure of the College for the admission of Licentiates under the foregoing Regulation :—

1. The Petitions and Testimonials of all Applicants for the License of the College under Regulation 8, shall first be submitted to the Council, and reported on by them to the College.
2. The names of the Applicants so reported, together with a statement of their qualifications, and with the names of those who have certified in their favour, shall be circulated with the Billets summoning the Meeting of the College, at which the Applications are to be considered.
3. The Petitions of all Applicants, as aforesaid, shall be laid before the College, either at a Quarterly or at an Extraordinary Meeting, along with the Testimonials in their favour; and the College shall then proceed to ballot on each Application, a majority of two-thirds of those who vote being necessary to declare the Applicant duly elected a Licentiate.

9. The Examination may also be dispensed with in any case, on the motion of a Fellow, provided the motion be intimated in the Billet summoning the Meeting, and be carried by five-sixths of those present.

10. The Examiners in Preliminary Education shall be chosen by the Council from time to time, according to the subjects professed by the Applicants.

11. Should the Examiners in Preliminary Education not be Fellows of the College, the President or Vice-President, or one at least of the Censors of the College, or failing these, some Fellow of the College appointed by the Council, shall be present at the Examination.

12. The Examiners of the College, annually chosen at the Election Meeting, shall conduct the Professional Examination of Applicants.

13. The Examiners shall have power to conduct the Examinations at such times and places as they may select, and to adjourn them as often as may seem advisable.

14. The Examinations shall be conducted either as a whole, at the conclusion of the Course of Study, or in parts, according to the following arrangement of subjects, and at such times as may be prescribed by the Council :—

1. Anatomy, Physiology, Chemistry, Botany (*if the Applicants have not been examined in it as a branch of Preliminary Education*).
2. Materia Medica and Pharmacy, Pathology and Pathological Anatomy, Surgery.
3. Practice of Medicine, Midwifery, Medical Jurisprudence.

15. The Examination shall be conducted partly *vivâ voce*, partly by written papers ; and, whenever practicable, shall consist, in part, in the actual examination of persons suffering under disease.

16. The Examination being concluded, the Examiners shall decide, by a simple majority of those present (the Chairman having both a deliberative and a casting vote) whether the result of the Examination has been satisfactory. If the decision of the Examiners be favourable, it shall be intimated at next Meeting of the College.

17. The following shall be the procedure for the admission as Licentiates of Applicants who have undergone Examination.

1. The Examiners shall keep a record of the Examinations, with the state of the vote, a copy of which shall be laid before the Council, and by the Council before the College at the Meeting at which the Applicant is proposed. In the case of unsuccessful Applicants, while the record shall be communicated to the Council, no copy shall be laid before the College.
2. The Record of Examination, and Testimonials of Character in favour of the Applicant, having been submitted to the College, each Applicant shall forthwith be balloted for, a majority of those who vote being required for his admission, unless he be specially exempted by the Charter or Bye-Laws of the College.

18. All Applicants for the License must lodge their Fees, and the amount of Stamp Duty, if any, payable at the time to Government, with the Treasurer, previously to presenting their petition.

19. For one year from this date, the Entrance Fee payable by a Licentiate shall be Ten Pounds, exclusive of the Stamp Duty.

N.B.—Under *the Medical Act*, Licentiates of the College of Physicians can claim to be entered in the Register, and can practise Medicine in any part of Her Majesty's dominions.

In name and by authority,

D. R. HALDANE, M.D., *Hon. Secretary.*

EDINBURGH, 20*th April* 1859.
